

RAM[®] MOUNTS

Aviation

Local Partner

Located at Boeing Field, our next door neighbor Galvin Flying is a full service aviation company focused on flight training, aircraft maintenance, and charter flights. Not only do they have the best flight training program in the state of Washington, they integrate RAM® Mounts in nearly every aspect of their programs. From airplanes to flight simulators, Galvin relies on RAM® Mounts to securely hold devices for flight navigation, filming and in-flight note taking.

About RAM® Mounts

RAM® Mounts manufactures rugged and versatile mounting systems for phones, tablets, and other mobile devices that can be attached nearly anywhere. Unlike other mounts on the market, RAM® allows you to secure devices where you need them most. The unique design of the RAM® Mounts system provides quick installation, adjustability, strength, vibration damping, and durability—all at a low cost. Backed by a lifetime warranty, RAM® uses powder-coated, marine-grade aluminum with lightweight and high-strength composites, stainless steel hardware, and rubber balls.

The RAM® Difference

Premium Design

The rubber ball and socket design of our mounting systems offers a secure hold, with near-infinite adjustability and vibration damping for the most demanding environments. With thousands of components trusted by users around the world, we've been able to design and develop mounting solutions that consumers and companies previously only dreamed were possible.

Customizable

Take your phone mount from your truck to your boat, or mix and match components to create your ideal mount. Because of the modularity of the RAM® system, you can customize your solution to fit your specific needs in almost any application.

Quality Materials

A premium design deserves the highest quality materials available, from rubber and stainless steel to high-strength composites and marine-grade aluminum. Our facilities—including powder coating, die casting, rubber injection molding, and shock and vibration testing—help us deliver on this promise to bring you inventive mounting solutions.

Lifetime Warranty

It's simple. Our reputation as the leader of premier mounting systems means if we build it, then we guarantee it. We're confident in the quality of our products, and with our warranty, you can be too.

*1-3 year warranty on electronics, including powered docks

National Products Inc. (NPI)

Introduced in 1990, National Products Inc. (NPI) quickly became the leading manufacturer of rugged and versatile mounting solutions. RAM® Mounts has grown to offer approximately 5,000 modular components—the most innovative product line of its kind for nearly any application and device, including phones, tablets, GPS systems, laptops, marine electronics, printers, radios, and much more.

In addition to RAM® Mounts, NPI is also the creator of award-winning IntelliSkin® sleeves and GDS® Technology™ products. IntelliSkin® sleeves ruggedize a wide range of consumer phones and tablets, while the GDS® Ecosystem™ provides users the ability to securely charge, dock, and sync devices in the most demanding environments.

NPI is proudly located in Seattle, Washington in the same neighborhood where the company was started.

Partner with RAM® Mounts

Here at RAM® Mounts, we believe that unfathomable things are possible with ingenuity. With a portfolio of more than 5,000 SKUs paired with innovative engineers and in-house product experts, we have the tools and expertise needed to create solutions that you didn't know were possible. We have the ability to solve your mounting challenges quickly, efficiently, and cost effectively.

How It Works

Double Socket Mounting System

Choose from a selection of holders, socket arms and ball bases to build a custom mount for your specific aircraft. Additional bases may be chosen so that your mount can support multiple devices, or can be transferred to alternate mounting locations.

1

Choose a Holder

RAM® offers a wide selection of holders for your specific device

2

Choose an Arm

Select an arm based on your desired length and placement

3

Choose a Base

Select from a variety of bases to help secure your device where you need it

Vibration damping

Double ball and socket technology allows for near-infinite adjustability of your RAM® mounting system

The yoke clamp base will fit rails in diameter from 0.625" to a maximum of 1.25"

Commercial Aviation

RAM® doesn't just design and manufacture mounts for recreational flying, RAM® is trusted in the commercial space as well. The same mounts are trusted in the cockpits from all major airlines. The business of passenger and cargo travel is serious business and requires products that are built to last. The entire aviation lineup of RAM® Mounts can be found in almost every large aircraft and has been helping pilots navigate since the '90s.

RAM® Cessna Seat Rail Mount with 12" Flex Arm and Round Plate

RAM-HOL-TAB20U

RAM® Tab-Tite™ Holder for 9"-10.5" Tablets with Heavy Duty Cases

Features

It has two threaded holes, the larger one is a 1/2" NPT hole and the smaller one is 1/4" NPT hole so it accepts any NPT Pipe or NPSM threaded rods offered by RAM®

The flex rod is rigid but can be bent to the desired position so that the device can be angled at the ideal position

Double ball and socket technology allows for near-infinite adjustability of your RAM® mounting system

RAM® Cessna Seat Rail Mount with 12" Flex Arm and Round Plate

RAM® brings the popular RAM® No-Drill™ seat bases to airplanes. Much like cars and trucks, airplanes like Cessna have seat rails to adjust the position of the seat. RAM®, of course makes a custom mounting solution that installs directly into the rail system with an included flex rod for the ultimate adjustability and tablet placement to benefit the pilot during flight.
