Although great effort has been made to ensure accuracy and completeness, Aero Accessories/Tempest® assumes no responsibility for the information contained within this document. Responsibility for airworthiness of aircraft, including the installation of correctly selected approved replacement of parts lies with the aircraft owner/operator per FAR 91.163, FAR 121.363, FAR 123.45, FAR 127.131 and FAR 135.143 (a). Please refer to FAA or engine/airframe/propeller manufacturers' parts listing for approved part numbers for each application. Tempest brand products are manufactured by Aero Accessories, LLC.

Fuel Pumps for RAJAY® Equipped Engines

AboutApplicationsSpecificationsFAQsVideosShop

RAJAY fuel pumps are modified versions of the standard AC/Lycoming® types used on specific aircraft equipped with RAJAY turbochargers. The modifications include an upper deck reference port and a slightly stronger diaphragm spring to increase the fuel pressure for the turbocharger at a higher altitude.

Fuel Pumps for Continental® Engines

AboutApplicationsSpecificationsFAQsVideosShop

Original equipment fuel pumps for early Continental engines, and airplanes such as the Ercoupe or Globe Swift were once extremely hard to find and their price reflected it. Tempest® listened to you, our customers, and now offers the most popular models at an affordable price. Choose from FAA-PMA factory new models or our FAA Approved overhauled models.
